

SAFETY MANAGEMENT SYSTEM

The **GATOR Safety Management System** is a customizable, flexible, and scalable solution to efficiently manage all aspects of a safety program. The system provides 24/7 REAL TIME access and visibility via its web-based and mobile applications. It is the most effective and versatile tool for planning, tracking and reporting on safety hazards, inspections, incidents, corrective actions, work orders, maintenance, notifications, training, and much more. The Safety Management System can elevate safety performance, reduce employee and employer risk, and simplify regulatory compliance.

Customized Mobile App

Provides branded, customized, and easy to use Mobile Safety Application for inspections, incident reporting, work orders and more.

Safety Inspections

Creates inspection templates, categorizes inspections, and assigns users to complete inspection check lists using mobile app.

Work Orders & Maintenance

Generates a work order each time there is an inspection failure and assigns and manages work orders using mobile app.

Incident Reporting

Reports incidents in real time and immediately alerts the proper group of management and end users.

Cloud / On-Premises

Provides 24/7 global access through web portal, mobile app, or our secure on-premise internet solution.

Dashboards & Reports

Presents all safety data through customized dashboards and reports to ensure your team is staying on track.

Broadcast Messaging

Communicates with workforce via targeted broadcast messages, safety alerts, policy updates, training info/videos and more.

Direct Messaging

Communicates to specific users or groups by direct messaging through mobile app or administrative portal.

Alerts & Notifications

Informs management and key personnel through automated and targeted intelligence notifications regarding safety issues and more.

ELEVATE Safety. **REDUCE** Risk. **MAINTAIN** Compliance.
